

Learning. Technology. Innovation.

Peak Pacific Limited

Headquartered in Hong Kong, **Peak Pacific** is a global market leader in Learning, Technology and Innovation.

We are seeking talented, ambitious professionals to join our team to provide strategic leadership and inspire behaviour-changing ideas across multiple areas internally and our high-profile clients.

You will have the opportunity to work with globally recognised companies in industries where high stakes compliance and regulations matter and the opportunity to design and develop game-changing strategies with clients who welcome innovation and fresh thinking.

You will also play a key role in inspiring clients in the Airline, Transportation/Logistics, Banking/Finance, Healthcare, and other exciting verticals to find adventurous new ways to excite and engage learners across digital learning, enabling technologies, social media, gamification, mobile, VR, 3D, and other modes of learning and training.

Reporting to the Learning Technology Strategy Manager, this role will provide consultative and business analysis services relating to Learning technologies, coordinate and provide support for any third party products and work with the Learning Technology team to provide optimal solutions and customer support.

Duties

- Support the Company's vision, mission and business goals.
- Support the management team to meet the business goals and create value for its customers.
- Passionate, enthusiastic and proven track record in managing enterprise applications, business analysis and technology driven next generation solutions.
- Understand clients' operational needs for Learning Systems and Applications, including; Learning Management System, Examination System, xAPI platforms like WaterShed LRS,
- Provide consultancy and strategic analysis to the client relating to utilisation of Learning Technologies, and business processes improvement.
- Manage Learning Technology projects, ensuring optimum use of resources, time and maintaining costs.
- Manage on-going development and enhancement requirements of Learning systems and applications in collaboration with the senior management team.
- Provide regular monthly report to senior management.
- Provide timely team budget data to senior management as required.
- Ensure all Company policies, management plans, and procedures are adhered to.

Knowledge, Skills and Abilities

- Strong understanding of Learning technologies and standards.
- Solid experience in applying the capabilities and features of Learning Management Systems, enterprise-wide platforms like NetDimensions, CornerStone OnDemand, SuccessFactors, etc.
- Hands on experience with SharePoint's out-of-the-box features and basic customisation will be an added advantage.
- Knowledge of integrating enterprise applications using various APIs.
- Hands on experience with HTML5, CSS3, JavaScript frameworks like AngularJS, Node, Hammer.js etc. will be an added advantage.
- Exposure to mobile learning technologies and tools like Xamarin, React etc.
- Experience in client consulting and business requirements capturing.
- Strong Project and Programme management skills are a must
- Self-motivated with immaculate time management skills.
- Ability to analyse, understand business needs and creatively define and deliver learning technology business solutions.

- Ability to ensure that business ready solutions are developed, documented and delivered to meet client requirements.
- Strong team, client and project management skills with demonstrated ability to lead multiple projects.
- Excellent verbal and written communication skills, as well as presentation skills.

Personal Attributes and Qualification

- Minimum 8 years of IT consulting and business analysis, within small to medium-size corporates.
- Degree in Computer Science / Engineering; Education Technology or related.
- Excellent communication skills in English. Cantonese and/or Mandarin is a plus.
